More time is spent in the kitchen than most of us realize. With the simple removal of one 13-foot section of wall, this cramped kitchen has become the family's favorite gathering place. And, our Nature's Window added over 50 square feet to the kitchen.

Dining takes on a whole new dimension. Mom and Dad now linger over breakfast before the morning commute. Candlelight dinners become a new tradition. And the kids keep bringing friends in to see the "new room"

Relaxing. Reading. Entertaining. Conversation. Music. Bridge. Movies. You'll find that your new Solar Additions room instantly becomes the focus of your home and everyone's favorite room. And you'll suddenly notice the world outside.

The Nature's Bay Window

Basic Sizes: We offer an infinite variety of room sizes. The sizes shown here are simply to give you ideas. If there's something you want that isn't shown here, just ask. We'll be happy to build it for you.

Lengths: Starting at 12 feet and increasing in 3- or 4-foot sections, we can custom-create a room in almost any length you require simply by combining sections.

Depths: As a room extension, this sun space can be as shallow as 4 feet.

As a full room, the depth can be 10, 12 or even 16 feet.

Heights: The standard height of this room extension is 9 feet, 8 inches as it joins the home. Roof pitch is 4/12. Custom variations are available as required.
